MEMPHIS PROPOSITIONS

OF THE STRIKE IN WASHINGTON MINES.

SEATTLE, Wash., May 20. The strike at the Franklin coal mines in this county has assumed dangerous proportions. About 600 negroes and 250 white miners are now on strike, and the strike has been established and no one dares to cross it. The cause of the trouble is the hiring of negroes to fill the place of striking white miners.

REFUSAL WAS RIGHT.

DECISION OF COURT IN BOSTON CASE.

BOSTON, May 20. The Fall Bench of the Supreme Court has sent down an opinion in the case of Silas S. Drew, who was convicted of obtaining goods under false pretenses, overruling the defendant's exception.

The principal exceptions taken by the defendant was to the refusal of the judge to rule when the case was tried to a verdict, acquittal upon all the evidence, and the present court finds that the refusal was right.

Another objection was that the indictment did not sufficiently allege that the defendant took the goods with the intent to sell them. The court overruled this objection, saying that the counts in the indictment were sufficiently clear and that a false pretense was alleged.

The court further finds that the evidence was sufficient to warrant the jury to find the defendant guilty.

DEPLORABLY BACKWARD.

PREPARATIONS FOR THE WORLD'S FAIR.

ST. PAUL, Minn., May 20. The preparations for the World's Fair are in a deplorably backward condition, according to ex-Mr. C. C. Clegg.

He passed through St. Paul yesterday on his way west and in an interview said that there was not a stick in the ground yet toward erecting the buildings. They are to be built on the site of the old opera house, "that is the world's fair," he said.

Fair people are behind with their work. I cannot see how they can possibly be ready to open the exposition day 1st, 1893, the date specified. I believe they will have to postpone the fair before they will have the buildings completed. I believe also that the Congress will have to be asked to extend the time.

Some of the Democratic papers are claiming great credit for Senator Gorman on account of the defeat of the election bill. That creditable performance was due to Republican treachery rather than Democratic generalship.

The Mugwump worship of Mr. Cleveland evicts the ire of the New York World, which says "the attempt to make Mr. Cleveland the special champion of public economy is ridiculous. Mr. Cleveland's idea of economy seems to be to veto pension bills grant in relief to the old veterans."

The arrangements for Merchants' Week are progressing smoothly and with favorable weather the occasion will doubtless be a great success. The people in the eastern portion of the state are taking a lively interest in the event and the indications are that they will come from near and far to participate in the entertainment. The more the merrier Bangor will give a cordial welcome to all.

There is this difference, says the *Independent*, between the Englishmen and their servant on the American press—an Englishman will sometimes stop lying and English newspapers are beginning to tell the truth about the effects of our late fiscal legislation. One of these commences as follows:

There are signs of the McKinley tariff producing the effects it promises designed and anticipated, that is to say, of manufacturing industries from foreign countries to the United States. Rhode Island is likely to become the site of a great worsted manufacturing promoted by the hand of the English and the continent. The manufactory is to be a protection for besides other trades she finds her utility tried hard which is true also of steel. The cutters of Sohnen think seriously of transferring their works and many operatives have emigrated in advance of their employers.

We have no desire to attempt to follow the *WHIP* any further into the very small and dark way that it has crept on the assistance of the English, but the free sugar and free potato question is not the only one that altogether, and very wisely, too, the assumption that our own farmers and our people "can be hoodwinked by a simple appeal to some local interest in opposition to the general public welfare, will be found to be decidedly deceptive."

We remonstrated Wednesday morning that after weeks of agitation neither the Mayor nor his supporters had been able to present the formal opinion of a single lawyer sustaining his position and the above is our contemporary's only response. It would seem to people of ordinary common sense that the other fellow was in the hole. As to the question of potatos we suggest that the *WHIP* might induce its party to insert a free potato plank in its next State platform as companion piece to that other brilliant performance for which the *WHIP* was the sponsor namely a nose plank.

Our esteemed Democrat contemporaries, the Boston *Advertiser* and the New York *Herald*, do not agree as to the right of the United States to repossess the state. The *Herald* says:

The very fact that the supporters of the administration find it necessary to search for a reason for doing what they do, the purpose of the lie, proves that the movement is a movement that is the natural and necessary, but it may not be unprecedented, but it is gratuitous and uncalculated for the other hand the *Herald* says:

There is danger in discussing a question of international law if one is bound to be always ready to admit that Mr. Blaine was not always right in his opinion. It is now, however, well understood by an evening cigar of Mugwump who has been foolishly running his head against well settled principles and established precedents. He is, however, a man and his opinions have been formulated enough to understand the elementary precepts of the law when it is their business to administer.

While this is aimed at a Mugwump sheet it seems to bear down pretty heavily on the *Advertiser*.

An Absolute Free Trader

The New York *Advertiser* in the speakership candidacy of Mr. Mills is inclined to the Democratic party. It says:

The friends of the Hon. Roger Quarles Mills are yelling that he is entitled to the speakership of the Fifty-second Congress because he is the representative and leader of the *WHIP*!

The kind of tariff reform that Mr. Mills wants is preached on the stump in the Northwest last year when he ought to have been at his post in Congress trying to earn the salary which the United States pays for its diplomatic services. He has, however, been fortunate enough to understand the elementary precepts of the law when it is their business to administer.

# What is the Matter with the School Children?

## PART THREE—LIFE.

CHAPTER IX.  
TON BARNES'S VISITOR.

*"I am sorry," said Tom.*

A big book and a small child. May be half a dozen big books and a small child. It is one of the school children in a small room, poor ventilation, foul air and too many books for the breathing space—the ordinary school room.

Study room, study room, after school study room, more study in the evening for next day, one of the school days.

And father and mother wonder why their children are nervous, cross, haggard and don't feel well for these parents' suggestions.

Give your children Palmer's Celery Compound. It will banish their nervousness. They will feel well all over. It will give the needed strength for school duties and restore perfect health.

Many well known people in this city can testify to the great benefit their children have derived from the use of Palmer's Celery Compound.
